1. Claims 1-9 and 11-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claims fail to recite any heating temperature for the critical alkaline treatment.

2. Claim 5 recites the limitation of an intermediate step in the process of "treating the treated organic phosphoric ester". There is insufficient antecedent basis for this limitation in the claim since claim 5 is treating a washed ester. An independent set of claims would obviate the language difficulty.
